Great news, everyone! Shortly after the release of TAO Translator v1.1.0 ^[5], it was approved to the Built for BlackBerry ^[6] program. This means that it conforms to a strict set of criteria ^[7] set by BlackBerry and delivers a signature BlackBerry 10 experience.

Here's what BlackBerry says about the program:

Built for BlackBerry. The signature BlackBerry 10 experience.

Built to keep you moving, apps and games with the Built for BlackBerry designation provide the seamless performance and integrated experience you've come to love. Look for the Built for BlackBerry badge to identify apps and games that deliver the signature BlackBerry 10 experience.
