## **Branch and bound method of solving Travelling Salesman Problem** <sup>[1]</sup>

**Підтримувані платформи:**

- Windows

**Мови інтерфейсу:**

- Русский

**Технології:**

- Pascal
- Delphi

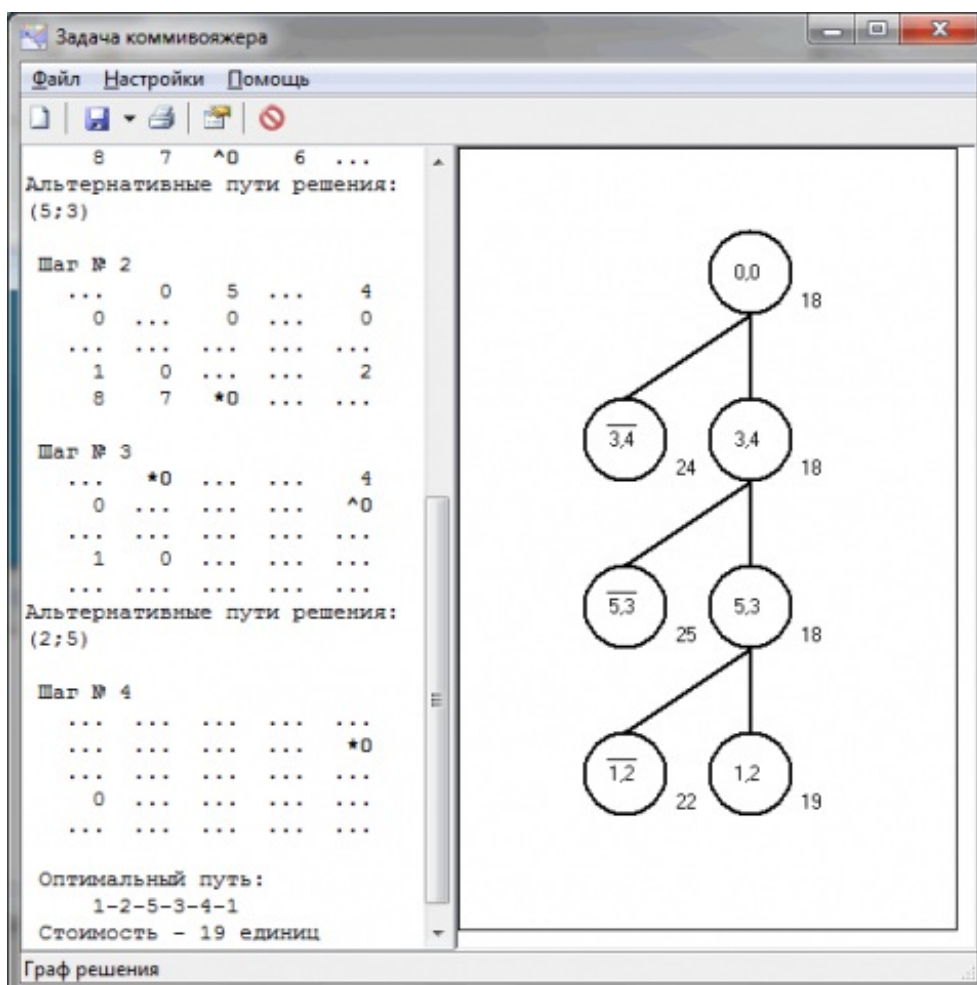

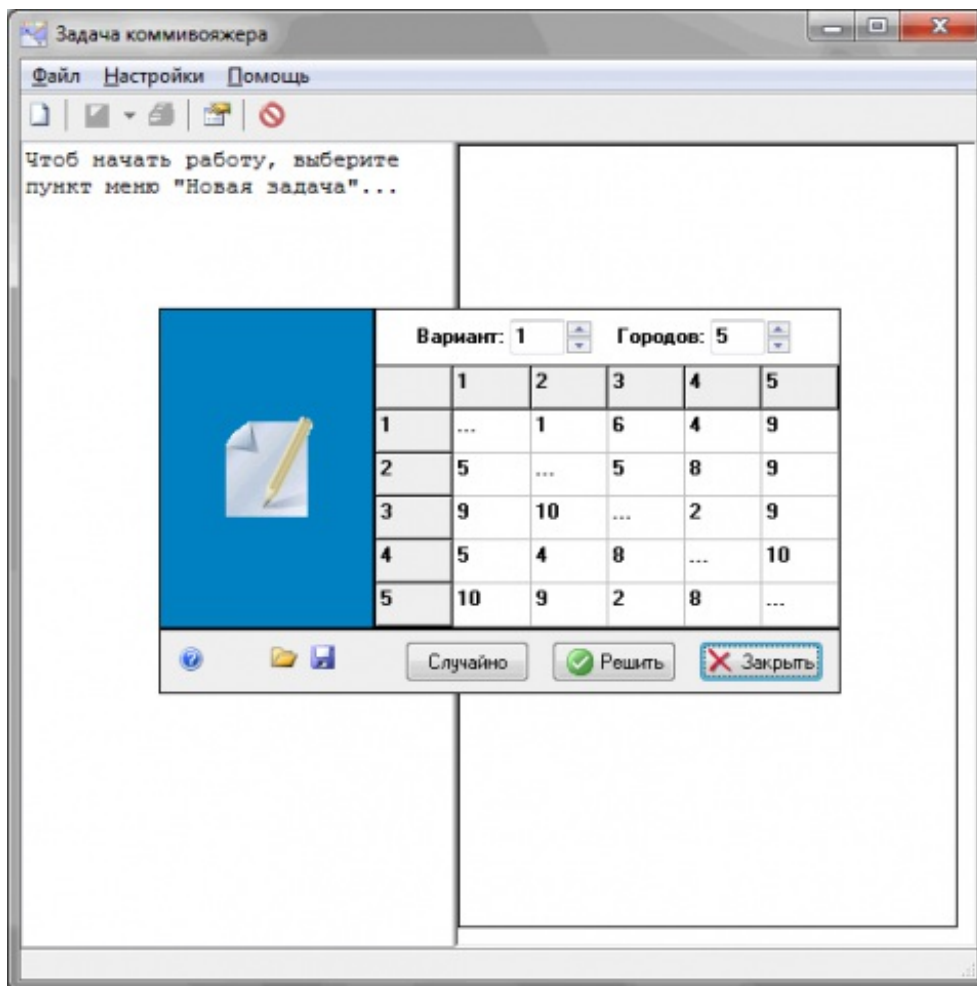

### **Опис:**

Application for generating and solving Travelling Salesman Problem tasks. This application was later rewritten from scratch as an Open Source cross-platform Qt-based application [TSP Solver and Generator](#) <sup>[2]</sup>.

### **Мій внесок:**

This application was written as my University assignment (coursework“**Branch and bound method of solving Travelling Salesman Problem**”). I needed to make a corrections to the algorithm of already existing application, but I ended up making corrections, additions and redesign of the whole application.
